

Trinity Hall: Mathematics Teachers (2017-18)

Trinity Hall seeks experienced and passionate **Math Teachers** to join our STEM team, with a minimum of three years secondary school experience, preferably in an independent school community. The successful candidates will be able to teach multiple levels of Mathematics (including AP), and ideally, be capable and willing to teach a second discipline as well: Chemistry, Biology, Physics, and/or Engineering. STEM at Trinity Hall is studied by a student-centered, inquiry-based interdisciplinary approach that encourages active participation, collaboration, and 21st century skills. Students are empowered to take ownership of the material, making connections on their own and sharing their insights (and questions) with the group. This move from a lecture-based model to a collaborative approach challenges students to become risk-takers and transforms their analytical and research skills, preparing them for a lifetime of problem-solving.

She/he must be able to assume responsibility for the leadership and administration of the classes assigned; facilitate a positive academic and formational experience in the Catholic Tradition; create and organize a classroom that facilitates student learning and makes use of effective technology tools; provide for the safety and welfare of all students; teach in accordance with Trinity Hall and New Jersey Department of Education policies and guidelines; and show respect for all individuals and fairness in dealing with students and parents. We expect all candidates to have strong interpersonal skills, excellent communication skills, and an understanding of the development needs of adolescent and teenage girls.

Under the supervision of the Head of School, a Trinity Hall teacher endeavors to achieve the academic, social, and spiritual formational goals of Trinity Hall. Full-time faculty are expected to teach four courses per academic year, serve as a leader to a student advisory group, and contribute to the extra-curricular life of the school. All faculty will play a vital role in the continued development, growth, and success of Trinity Hall.

To apply, candidates should electronically submit a statement of interest, a statement of philosophy, and resume to Head of School Mrs. Mary Sciarillo via admin@trinityhallnj.org, indicating **Mathematics** in the subject line. No telephone inquiries please. All electronic applications will be acknowledged upon receipt, and those candidates who best match Trinity Hall's qualifications will be contacted.

Trinity Hall, in the treatment of employees and applicants for employment, is committed to a policy of equal employment opportunity and nondiscrimination. The school and its representatives follow the laws that govern hiring practices and focus fairly and consistently with every applicant on the talent, skills, and abilities needed for the job.
