

## Living Religions Fieldwork Project

### Research Site Request

Submit in an email to [jmaaia@cathedral.org](mailto:jmaaia@cathedral.org)

One Submission per Research Team

Due:

In class, we will have surveyed the class to find out what kinds of religious communities each person is interested in studying. This will have helped students to find a partner for their project.

Once teams have been established, each team will identify *at least two* religious communities in the area, ideally communities that have not been visited in the last two years. Teachers will provide students with a list of possible sites, but students are also welcome to add to this list with the permission of the Religious Studies Department.

By the due date, each team should send an email to [jmaaia@cathedral.org](mailto:jmaaia@cathedral.org) with the following information:

First and Last Names of **both** Team Members:

Group's first choice:

Name of Community  
Address line 1  
City, State, Zip  
Phone #  
Email address and/or website

Group's second choice:

Name of Community  
Address line 1  
City, State, Zip  
Phone #  
Email address and/or website

Sites will be assigned according to the order in which they were received to this email box.
