"The NCGS enrollment surveys are a valuable, time-saving resource for our admissions team. We are able to easily acquire direct feedback from our enrollee, non-enrollee, and non-applicant inquiry families about the factors that go into their decision-making. This data, gathered every spring at the conclusion of the admissions season, helps us enhance our admissions outreach and process. The survey results have also proven invaluable during the self-study portion of our regional evaluation."
